Rainier Diking District Levee Discussion Summary:

Todd Dugdale from Columbia County presented information to the Council about the FEMA flood insurance rate map revisions.

The remapping will take place approximately by mid 2012.

He encourages the Council to lobby the Government Representatives to help change the process.

If the Dike levy is not recertified the property in that area will be included in the flood plan and could potentially reduce land values and make development more costly and difficult.

Meeting Adjourned at 7:20 p.m.
